

SEAWATCH PROJECT FOR MERINE SURVEILLANCE IN THAILAND

Twesukdi Piyakamchana*

HISTORY OF SEAWATCH PROJECT IN THAILAND

The Seawatch Project started in the year 1991 by the Office of the National Research Council of Thailand of Ministry of Science Technology and Environment dwelled Oceanor Company to raise a loan from Norwegian Government in low interest rate. Thirty months of Seawatch Thailand's phase I ended in 1995. The second phase is added 3 years of cooperation time. It is going to end on August 1996.

The project offers more advantages to the Thailand's environmental technique and economic development. As Thailand lived the marine environment or good life since the Sukhothai period or before that. For the present, Thailand is a country in the region to study many branches of the oceanography.
